

Health & Safety

To enjoy Virtual Reality safely, we ask that you:

- Stay seated unless otherwise instructed.
- Please inform us of any visual or physical conditions that may hinder your enjoyment, e.g. getting dizzy easily, light sensitivities, seizures, the inability to move your head freely.
- Please be aware that to enter Virtual Reality you must wear a headset which will totally block your view of your real location, add about 1.5lbs to your head and neck, and some pressure to your face (the mask must cover your eyes).

Benefits of Virtual Reality:

- Reminisce via immersive experiences
- Engaging content brings conversation alive!
- Brings adventure to the bed- and wheelchair-bound
- Hand-eye coordination through virtual sports
- Boundless, borderless fun!

By Request

That's right, you can ask for a special location, sport, activity or experience!

No promises, but we'll try our best - as long as it does not involve time travel!
